BOTTOM LINE UP FRONT - DTR LITE - 10-JUN-2026

PREP-CON 3 BROWN SKY - INCIDENT PROBABLE | WX-CON 3 ENHANCED - Midwest active today | SWX-CON 1 STABLE - G3/G2 watch cancelled | COMCON 4 - 30 NWR affected | 3 FLASH + Belfast HIGH this cycle

FLASH US-IRAN EXCHANGE Score 29	CENTCOM STRIKES IRAN 09-JUN + IRAN RETALIATES ON US BASES 10-JUN -- CEASEFIRE STRUCTURALLY BROKEN: Op Epic Fury Day 102 / Hormuz Day 59. Trump confirmed Iran shot down Apache helicopter. CENTCOM launched self-defense strikes 09-JUN (~1700-2100 ET) targeting Iranian air defense, radar, and ground control stations near Hormuz. Iran IRGC counter-struck US Fifth Fleet Bahrain, Ali Al Salem AB Kuwait, al-Azraq AB Jordan 10-JUN early AM. Jordan intercepted 5 missiles. Nearly all threats intercepted. No confirmed US casualties. IRGC claimed F-35 hangar at al-Azraq destroyed (unverified). Iran official: no US serious will to finalize deal. Quds Force declared new security belt Hormuz to Bab al-Mandab. Six Americans detained in Iran. Brent ~\$91-94 volatile. [GEO-CF-IRAN]
FLASH IAEA BLACKOUT Day 102	IAEA VERIFICATION BLACKOUT DAY 102 -- NEAR-TOTAL MONITORING LOSS CONFIRMED -- 440.9 KG 60% HEU UNACCOUNTED: FDD/ISIS published 09-JUN analysis of IAEA June 4 quarterly report: near-total, ongoing loss of monitoring. IAEA stopped verification activities in Iran 28-FEB-2026. Director General Grossi: irreversible loss of continuity of knowledge. 440.9 kg 60%-enriched HEU -- enough fissile material for multiple weapons if further enriched -- location cannot be confirmed. Fordow and Isfahan underground halls assessed intact. US demand: HEU surrender. Iran offer: down-blend only (unverifiable). Impasse unchanged. [NUC-001]
FLASH CISA KEV 3 NEW CVEs Score 20	CISA KEV 09-JUN: CHROMIUM V8 + ARISTA EOS + CISCO SD-WAN (3 NEW) -- CHECK POINT VPN FCEB DEADLINE TOMORROW -- NEW CISA BOD TODAY: Three new CISA KEV entries 09-JUN: CVE-2026-11645 Google Chromium V8 (all Chromium browsers; due 23-JUN), CVE-2026-7473 Arista EOS network OS (due 23-JUN), CVE-2026-20245 Cisco Catalyst SD-WAN Manager (due 23-JUN). Three-sector sweep (browser + network OS + SD-WAN) consistent with nation-state pre-positioning. Check Point VPN (CVE-2026-50751) FCEB deadline TOMORROW 11-JUN: active exploitation confirmed -- patch or disconnect immediately. CISA new Binding Operational Directive releasing today shifting to consequence-based risk prioritization. ICS-CERT 09-JUN: Schneider Electric EcoStruxure Panel Server + Siemens KACO Blueplanet grid inverters. [CYB-001]
HIGH BELFAST RIOTS Active	BELFAST ANTI-IMMIGRATION RIOTS 09-10-JUN -- HOMES TORCHED -- PSNI ENGAGED -- RALLY BELFAST CITY HALL TODAY -- SPREAD TO GLASGOW AND LONDON: North Belfast knife attack 09-JUN by Sudanese asylum seeker (charged with attempted murder) triggered multi-district riots across Belfast overnight. Homes and vehicles torched. Violence spread to Glasgow (2 police injured, members of public attacked) and London. Far-right rally planned Belfast City Hall today 10-JUN -- organizers explicitly encouraging loyalist AND nationalist attendance

	(analytically significant framing). US Embassy London issued Demonstration Alert 10-JUN. IO amplification: Musk, Farage, Tommy Robinson circulating knife attack video and calling for protests. Victim family called for riots to stop. ICA (new far-right group hijacking historic ICA name) is background ecosystem context; Garda SDU monitoring. Most significant UK/Ireland civil disturbance since 2024 UK riots. [DOM-001]
WATCH BVD/EBOLA PHEIC 550 Cases	BVD/EBOLA PHEIC ACCELERATING: 550 CONFIRMED CASES / 101 DEATHS AS OF 07-JUN -- 45% CASE INCREASE IN 5 DAYS -- NO VACCINE OR TREATMENT: ECDC 09-JUN: 550 confirmed cases (Ituri 518 / N Kivu 29 / S Kivu 3) + 101 deaths + 309 hospitalized. 35 new confirmed cases and 10 new deaths in 24 hours through 07-JUN. Prior baseline 02-JUN: 378 cases / 63 deaths -- 45% case increase in 5 days. CDC MMWR 02-JUN: 65% probability outbreak exceeds 20,000 cases in 3 months without strong intervention. No approved vaccine or specific treatment for BVD (distinct from Zaire Ebola). WHO/Africa CDC One Response plan + \$518M ask. US risk: LOW per CDC 02-JUN assessment. [GEO-EBOLA]
WATCH UKRAINE Active Front	UKRAINE: ISW -- RUSSIA WITHDRAWING KINBURN SPIT -- NATO DOWNED DRONE LATVIA FIRST TIME -- 213 COMBAT CLASHES 08-JUN: ISW 08-JUN: Russia reportedly withdrawing from Kinburn Spit (Mykolaiv Oblast) as Ukrainian intermediate-range strikes degrade supply lines. First time NATO forces downed a Russian-diverted drone in Latvian airspace. 213 combat clashes 08-JUN; heaviest Pokrovsk/Huliaipole. 155 drone strikes overnight 08-09-JUN. Kremlin continues to reject peace negotiations. ZNPP under Russian control, not generating power, no new safety incident. [GEO-UKR]
ACTION CYBER CHECK POINT	CHECK POINT VPN FCEB DEADLINE TOMORROW 11-JUN -- ACTIVE EXPLOITATION CONFIRMED -- PATCH OR DISCONNECT: CVE-2026-50751 Check Point Security Gateway improper authentication (VPN perimeter). Added CISA KEV 08-JUN. FCEB mandatory remediation deadline 11-JUN (tomorrow). Active in-the-wild exploitation confirmed. Affects enterprise and government network perimeters at scale. Patch per vendor guidance or disconnect affected appliances immediately. This is not a routine patch management item -- treat as active incident response. [CYB-001]
WATCH ENHANCED SPC Day 1 WX-CON 3	SPC DAY 1 ENHANCED RISK TODAY: UPPER MISSISSIPPI VALLEY AND MIDWEST -- TORNADOES / HAIL OVER 2 INCHES / WINDS OVER 75 MPH: SPC Day 1 Convective Outlook (1259 AM CDT 10-JUN): ENHANCED RISK upper Mississippi Valley and Midwest. Tornadoes (some strong), hail greater than 2 inches, wind gusts over 75 mph. Morning MCS across S WI/N IL. Afternoon supercell development eastern IA/northern MO; 0-6km shear ~40kt; 0-3km SRH ~225 m2/s2. Day 2 ENHANCED: NE MO/S IA/S WI/N IL/N IN/lower MI Thursday. FAA: ORD/MDW ground stop continuing. NWR compound gap: IN Angola DEGRADED and MI Petoskey OOS are inside the active corridor. MD Baltimore now OOS. Total 30 NWR stations affected (up from 18 yesterday). [WX-001]

PRACTITIONER POSTURE - 72-HOUR DECISION TRIGGERS

- 1. US-Iran Exchange:** The April ceasefire is operationally broken. CENTCOM struck Iranian air defense near Hormuz 09-JUN; Iran counter-struck US bases in Bahrain, Kuwait, and Jordan 10-JUN early AM. Nearly all intercepts; no confirmed US casualties. IRGC Quds Force declared new security belt from Hormuz to Bab al-Mandab -- if operationalized, extends chokepoint leverage to the southern Red Sea. EIA June STEO: \$105/bbl Jun-Jul assuming Hormuz stays closed. Decision window: further exchange within 48 hours is LIKELY.
- 2. Cyber -- Act Now:** Check Point VPN (CVE-2026-50751) FCEB deadline is TOMORROW 11-JUN; active exploitation confirmed. Patch or disconnect affected appliances before end of day today. Three new KEVs 09-JUN cover Chromium V8 (all Chromium browsers), Arista EOS network OS, and Cisco SD-WAN management plane -- three infrastructure layers in one day is pre-positioning tradecraft, not opportunistic. CISA new BOD releasing today shifts risk management to consequence-based prioritization; monitor for text.
- 3. Severe Weather -- Today and Thursday:** SPC Day 1 ENHANCED Risk active now across upper Mississippi Valley and Midwest. Tornadoes (some strong), hail over 2 inches, winds over 75 mph through tonight. ORD/MDW ground stop continuing. IN Angola DEGRADED and MI Petoskey OOS are inside the active corridor. 30 NWR stations OOS/DEGRADED including new MD Baltimore entry. Day 2 ENHANCED targets lower Michigan and N Illinois Thursday. Check alternate warning receipt for staff/facilities in these areas.
- 4. Belfast Riots / UK Security:** US Embassy London issued Demonstration Alert 10-JUN for Belfast and across the UK. Far-right rally planned Belfast City Hall today with loyalist-nationalist joint framing -- analytically significant. IO amplification by Musk/Farage/Robinson follows 2024 UK riots pattern. Organizations with UK/Ireland operations: review travel advisory posture; avoid protest areas; monitor for expansion beyond NI. Not FLASH because no confirmed deaths yet from riots, but trajectory is toward 2024 UK riot scale.
- 5. Nuclear Proliferation:** IAEA verification blackout Day 102 means 440.9 kg of 60%-enriched HEU cannot be located or accounted for by any external party. FDD/ISIS analysis published 09-JUN confirms near-total monitoring loss. Xi-Kim summit concluded 09-JUN without denuclearization outcome; Kim announced exponential nuclear production ramp-up. These are structural intelligence gaps, not acute daily-action items, but they represent the most significant global proliferation environment in decades.

KEY JUDGMENTS

KJ-1 US-IRAN EXCHANGE: The April ceasefire has operationally collapsed. CENTCOM struck Iranian air defense, radar, and ground control stations near Hormuz 09-JUN; Iran counter-struck US bases in Bahrain, Kuwait, and Jordan 10-JUN. Neither side inflicted confirmed casualties -- both calibrated their strikes to preserve diplomatic space while demonstrating resolve. The Hormuz blockade (Day 59) continues structurally intact. EIA June STEO projects \$105/bbl Jun-Jul. The IRGC Quds Force security belt declaration is the most significant new strategic signal -- if operationalized, it extends the chokepoint strategy to Bab al-Mandab.

LIKELIHOOD: likely (further exchange within 48 hours). **CONFIDENCE:** HIGH.

CHANGE FROM PRIOR: Prior cycle: Apache crash cause undetermined; score 27. THIS CYCLE: Trump-confirmed hostile fire by Iran; CENTCOM retaliatory strikes executed; Iran counter-struck three US bases. Ceasefire structurally broken. Score upgraded to 29.

KJ-2 NUCLEAR PROLIFERATION: IAEA verification blackout Day 102 means 440.9 kg of 60%-enriched HEU cannot be accounted for. The Xi-Kim summit concluded 09-JUN without denuclearization outcome; Kim simultaneously announced exponential nuclear production ramp-up. These events represent the simultaneous collapse of NPT verification architecture in two separate theaters. The cumulative global proliferation environment is materially worse than any point in the post-Cold War era.

LIKELIHOOD: almost certain (Iran maintaining functional enrichment with no IAEA visibility). **CONFIDENCE:** HIGH.

CHANGE FROM PRIOR: Prior cycle: Structural carryover. THIS CYCLE: FDD/ISIS published 09-JUN analysis of June 4 IAEA quarterly report confirming near-total monitoring loss. Xi-Kim summit produced no denuclearization outcome. Analytical confidence upgraded to HIGH.

KJ-3 BVD/EBOLA TRAJECTORY: The BVD/Ebola PHEIC is accelerating significantly. 550 confirmed cases and 101 deaths as of 07-JUN represent a 45% case increase in 5 days from the 02-JUN baseline of 378/63. CDC models a 65% probability of exceeding 20,000 cases in 3 months without strong intervention. Contact tracing nationally below 50% in DRC. No approved vaccine or treatment for BVD. US risk remains LOW but the trajectory requires monitoring.

LIKELIHOOD: likely (outbreak exceeds 1,000 confirmed cases within 14 days at current trajectory). **CONFIDENCE:** MODERATE.

CHANGE FROM PRIOR: Prior cycle: 378 confirmed / 63 deaths (02-JUN). THIS CYCLE: 550 confirmed / 101 deaths (07-JUN). 45% case increase in 5 days. Trajectory: accelerating.

FLASH SUMMARY - Score ≥ 20 (3 this cycle)

CENTCOM Strikes Iran 09-JUN + Iran Retaliates on US Bases 10-JUN. Apache Confirmed Shot Down. Ceasefire Structurally Broken.

FLASH | UPDATED | 29

GEO-CF-IRAN - Op Epic Fury Day 102 / Hormuz Blockade Day 59. Trump confirmed Iran shot down US Apache helicopter. CENTCOM launched self-defense strikes 09-JUN (~1700-2100 ET) targeting Iranian air defense, ground control stations, and radar sites near Hormuz. Iran IRGC counter-struck US Fifth Fleet Bahrain, Ali Al Salem AB Kuwait, and al-Azraq AB Jordan 10-JUN early AM. Jordan intercepted 5 missiles; nearly all threats intercepted across all three sites; no confirmed US casualties. IRGC claimed F-35 hangar at al-Azraq destroyed (unverified). Iran official: no US serious will to finalize deal. IRGC Quds Force commander declared new security belt from Hormuz to Bab al-Mandab. Six Americans detained in Iran. Brent ~\$91-94 volatile (\$89.61-\$94.43 range). EIA June STEO: \$105/bbl Jun-Jul assuming Hormuz stays closed.

CHANGE FROM PRIOR: Apache crash cause listed as undetermined. THIS CYCLE: Trump-confirmed hostile fire; CENTCOM retaliatory strikes executed and completed; Iran counter-struck US bases in three countries simultaneously. Ceasefire operationally non-functional.

LIKELIHOOD: Further exchange within 48 hours: LIKELY. **CONFIDENCE:** HIGH. Hormuz blockade persists through end of June: VERY LIKELY. **CONFIDENCE:** HIGH. Deal track reaches final agreement within 7 days: UNLIKELY. **CONFIDENCE:** MODERATE.

IAEA Verification Blackout Day 102. Near-Total Monitoring Loss Confirmed. 440.9 kg 60%-Enriched HEU Unaccounted.

FLASH | UPDATED | 24

NUC-001 - FDD/ISIS published 09-JUN analysis of IAEA June 4 quarterly report: near-total, ongoing loss of monitoring. IAEA stopped verification activities in Iran as of 28-FEB-2026. Director General Grossi: irreversible loss of continuity of knowledge. 440.9 kg of 60%-enriched HEU -- sufficient fissile material for multiple nuclear weapons if further enriched to 90%+ -- cannot be located or accounted for by any external party. Fordow and Isfahan underground facilities assessed as largely intact and operational. US demand: full surrender of HEU. Iran offer: down-blend only (reversible, unverifiable without IAEA access). Impasse structurally unchanged. Xi-Kim summit 09-JUN produced no denuclearization outcome simultaneously.

CHANGE FROM PRIOR: Structural carryover with no new report. THIS CYCLE: FDD/ISIS analysis published 09-JUN confirming near-total loss framing. Analytical confidence upgraded to HIGH.

LIKELIHOOD: Iran maintaining functional enrichment with no IAEA visibility: ALMOST CERTAIN. **CONFIDENCE:** HIGH. HEU surrendered or verifiably down-blended within 30 days: ALMOST NO CHANCE. **CONFIDENCE:** HIGH.

CISA KEV 09-JUN: Chromium V8 + Arista EOS + Cisco SD-WAN Manager. Check Point VPN FCEB Deadline TOMORROW 11-JUN. New CISA BOD Today.

FLASH | NEW | 20

CYB-001 - Three new CISA KEV entries 09-JUN: CVE-2026-11645 Google Chromium V8 out-of-bounds (all Chromium browsers; due 23-JUN), CVE-2026-7473 Arista EOS network OS (due 23-JUN), CVE-2026-20245 Cisco Catalyst SD-WAN Manager (due 23-JUN). Three-sector sweep in one day consistent with nation-state pre-positioning across the full enterprise stack. SEPARATELY: Check Point Security Gateway (CVE-2026-50751) FCEB deadline TOMORROW 11-JUN; active exploitation confirmed; patch or disconnect immediately. CISA new BOD releasing today shifts from vulnerability-count to consequence-based risk prioritization. ICS-CERT 09-JUN: Schneider Electric EcoStruxure Panel Server and Siemens KACO Blueplanet grid inverters.

LIKELIHOOD: Active exploitation of Chromium V8 within FCEB deadline window: VERY LIKELY. CONFIDENCE: HIGH. Check Point exploitation of unpatched systems by 11-JUN: LIKELY. CONFIDENCE: HIGH.

ANALYTICAL STANDARDS & SOURCE REGISTRY

This report is produced under the [FFTP Analytical Standards](#) (ICD 203/206 compliant) using the [FFTP Master Source Registry](#). All sources are tiered by reliability and assigned confidence levels. Likelihood language follows the §0.55 estimative ladder: almost no chance, very unlikely, unlikely, roughly even chance, likely, very likely, almost certain. Confidence: HIGH, MODERATE, or LOW.

REGISTRY	TOTAL SOURCES	TIER 1	TIER 2	TIER 3
Master Source Registry v2.22	629	367	253	9 (use with caution)

ANALYTICAL STANDARDS

FFTP Intelligence Operations Division follows ICD 203 (Analytic Standards) and ICD 206 (Sourcing Requirements) for all scored entries. Every FLASH and HIGH entry carries: (1) likelihood band from the §0.55 estimative ladder, (2) confidence level (HIGH/MODERATE/LOW), and (3) minimum two alternative hypotheses with supporting and disconfirming evidence.

TIER DEFINITIONS

T1: Primary government, academic, or institutional sources with direct reporting capability. T2: Established news organizations with editorial standards and regional expertise. T3: Specialized or emerging sources - used with explicit framing caveats.

Full source list, methodology, and analytical framework: fortunefavorstheprepared.com/analytical-standards | fortunefavorstheprepared.com/source-registry
