

DTR LITE - Executive Brief

Fortune Favors the Prepared | Intelligence Operations Division
Executive and director-level brief

Friday, 12 June 2026 | Op Epic Fury Day 103 | Hormuz Blockade Day 60 | Lebanon CF Day 11 | Iran settlement announced 11-JUN (unsigned) | IAEA Board 21-0 (10-JUN) | NI Riots Day 4 (easing) | World Cup under way

▲ PREPAREDNESS CONDITION 4 - ORANGE SKY - INCIDENT POSSIBLE ▲

COMMUNICATIONS CONDITION: COMCON 4 - INCREASED VIGILANCE - DTR-ASSESSED

WEATHER: WX-CON 3 - ENHANCED - Iowa/N.Mo/N.IL/S.WI/N.IN/Lower MI corridor ACTIVE TODAY / tornadoes + hail 2in+ + winds 75+ mph / SPC Day 1 Enhanced in window NOW

SPACE WEATHER: SWX-CON 2 - ACTIVE WATCH | SWPC G2 (Moderate) geomagnetic storm WATCH issued for 13-JUN (WATA30) | G1 K-index 5 reached 11-JUN 2040 UTC | Coronal Hole 63 stream arrived | Aurora possible to NY-WI-WA

Publication (UTC)	12 JUN 2026 / Cycle close 1530 UTC
Reporting Period	09-JUN-2026 1530Z through 12-JUN-2026 1530Z (standard 24-hr)
SOP	v5.57 ICD 203/206 Compliant Registry v2.24 Friday sweep 12-JUN: 56/56 mandatory dispositioned §0.129 trigger assessment complete

BOTTOM LINE UP FRONT - DTR LITE - 12-JUN-2026

PREP-CON 4 ORANGE SKY - INCIDENT POSSIBLE | WX-CON 3 ENHANCED - Midwest active today | SWX-CON 2 ACTIVE WATCH - SWPC G2 storm WATCH for 13-JUN (WATA30); G1 reached 11-JUN; CH63 stream arrived | COMCON 4 - 33 NWR OOS/DEGRADED | FLASH: Iran settlement + WX Slight NE | World Cup under way

FLASH US-IRAN EXCHANGE Score 31	US STRIKES IRAN 2ND CONSECUTIVE NIGHT (10-11 JUN UTC) + IRAN RETALIATES ON BAHRAIN/KUWAIT/JORDAN -- CEASEFIRE AT BREAKING POINT: Op Epic Fury Day 103 / Hormuz Day 60. SHARP DE-ESCALATION: on 11-JUN Trump called off the threatened third night of strikes and announced a settlement to end the war, with signing expected within days (Europe). The proposed Kharg Island terminal seizure would be abandoned if signed. Oil fell hard (Brent toward \$88-90; pump average easing). War is paused, not ended: two Iranian drones downed near Hormuz 12-JUN after a vessel was fired on; Tehran has not confirmed terms; IAEA Board 21-0 resolution (10-JUN) demands nuclear access. Announced, unsigned, unverified. [GEO-CF-IRAN]
FLASH IAEA BLACKOUT Day 103	IAEA VERIFICATION BLACKOUT DAY 103 -- NEAR-TOTAL MONITORING LOSS CONFIRMED -- BOARD 21-0 DEMANDS ACCESS -- 440.9 KG 60% HEU UNACCOUNTED: FDD/ISIS published 09-JUN analysis of IAEA June 4 quarterly report: near-total, ongoing loss of monitoring. IAEA stopped verification activities in Iran 28-FEB-2026. Director General Grossi: irreversible loss of continuity of knowledge. 440.9 kg 60%-enriched HEU -- enough fissile material for multiple weapons if further enriched -- location cannot be confirmed. IAEA Board voted 21-0 on 10-JUN demanding Iran fully cooperate, provide HEU stockpile data, and grant inspector access. Iran ambassador denounced the resolution. US demand: HEU surrender. Iran offer: down-blend only (unverifiable). Impasse structurally unchanged. [NUC-001]
FLASH CYBER PT RECORD 200+ CVEs	CHECK POINT VPN FCEB DEADLINE PASSED 11-JUN -- confirm compliance / monitor for continued exploitation (ACTIVE EXPLOITATION) -- MICROSOFT PATCH TUESDAY 200+ CVEs (RECORD) -- ROGUE PLANET POC SAME DAY -- CISA NEW BOD PUBLISHED: Check Point Security Gateway (CVE-2026-50751, CVSS 9.3): FCEB DEADLINE PASSED 11-JUN -- confirm compliance / monitor for continued exploitation -- active exploitation confirmed since May 7; Qilin ransomware affiliate linked (Rapid7). FCEB agencies not yet patched or disconnected are in violation as of 11-JUN. Microsoft Patch Tuesday 10-JUN: 200+ CVEs patched (largest PT in history); 3 publicly disclosed zero-days (BitLocker bypass, HTTP.sys DoS, CTFMON EoP); RoguePlanet PoC (SYSTEM shell via Defender race condition) published same day. 54 RCE vulnerabilities total. CISA new BOD (consequence-based risk prioritization) published 10-JUN. Secure Boot cert expiration deadline: 26-JUN. [CYB-001]
HIGH BELFAST RIOTS Day 3	BELFAST ANTI-IMMIGRATION RIOTS DAY 2 -- WATER CANNONS DEPLOYED 10-JUN -- SPREAD TO GLASGOW/EDINBURGH/SOUTHAMPTON -- TRANSPORT CANCELLED -- PSNI CONTINUE ACTIVE

	<p>OPERATIONS: Anti-immigrant riots in Northern Ireland, Day 4 and easing. Triggered by an 8-JUN knife attack (Sudanese suspect charged with attempted murder). PSNI reports 16 arrested this week and 12 officers injured; water cannon and attenuating energy projectiles used over the preceding nights. Crucially, unrest on 10-JUN was LOWER than the prior night, indicating the disorder may be fatiguing, though PSNI is still seeking further suspects. US Embassy London previously issued a Demonstration Alert. Pattern: 2025 NI riots ran 9-18 June (107 officers injured, 56 arrested). IO amplification: Musk, Robinson. [DOM-001]</p>
<p>WATCH EBOLA PHEIC 635 Cases</p>	<p>CENTRAL AFRICA EBOLA (BUNDIBUGYO): 635 CONFIRMED / 127 DEATHS (DRC MoH 10-JUN, data as of 9-JUN) -- +37 CASES / +12 DEATHS -- NO LICENSED VACCINE OR TREATMENT: DRC MoH 10-JUN (data as of 9-JUN): 635 confirmed cases, 127 deaths -- an increase of 37 confirmed cases and 12 deaths since the prior update. Africa CDC/WHO continental response plan active. WORLD CUP NEXUS: with the tournament under way, the US administration is asking European governments to impose travel restrictions on people recently in the affected Central African countries. No US cases. No licensed vaccine or treatment for the Bundibugyo strain. PHEIC in effect since 16-MAY-2026. US risk: LOW per CDC. [PHS-002]</p>
<p>WATCH UKRAINE Active Front</p>	<p>UKRAINE: ISW -- RUSSIA WITHDRAWING KINBURN SPIT -- NATO DOWNED DRONE LATVIA FIRST TIME -- 213 COMBAT CLASHES 08-JUN: ISW 08-JUN: Russia reportedly withdrawing from Kinburn Spit (Mykolaiv Oblast) as Ukrainian intermediate-range strikes degrade supply lines. First time NATO forces downed a Russian-diverted drone in Latvian airspace. 213 combat clashes 08-JUN; heaviest Pokrovsk/Huliaipole. 155 drone strikes overnight 08-09-JUN. Kremlin continues to reject peace negotiations. ZNPP under Russian control, not generating power, no new safety incident. [GEO-UKR]</p>
<p>ACTION CYBER PATCH NOW</p>	<p>CHECK POINT VPN FCEB DEADLINE PASSED 11-JUN -- confirm compliance / monitor for continued exploitation -- QILIN RANSOMWARE EXPLOITING -- PATCH OR DISCONNECT NOW -- MICROSOFT PT 200+ CVEs REQUIRES EMERGENCY DEPLOYMENT: CVE-2026-50751 Check Point Security Gateway (CVSS 9.3): FCEB remediation deadline PASSED 11-JUN -- now a post-deadline threat-hunt, not a patch-by-date task. Qilin ransomware affiliate confirmed exploiting this flaw since 7-MAY (Rapid7 HIGH confidence); any unpatched FCEB agency is in violation and should treat this as active incident response. Also: Microsoft Patch Tuesday 10-JUN dropped 200+ CVEs (record). RoguePlanet PoC (SYSTEM privileges via Defender race condition) published same day. Three zero-days (BitLocker, HTTP.sys, CTFMON). Deploy. Secure Boot cert expiration: 26-JUN. [CYB-001]</p>
<p>WATCH WORLD CUP DAY 2 DHS Alert</p>	<p>FIFA WORLD CUP 2026 DAY 2 -- IRANIAN-AFFILIATED HACKTIVIST THREAT NAMED -- FBI DRONE WARNING -- CISA STAFFING GAP: 104 matches, 16 cities, 48 teams, Jun 11-Jul 19. Opener: Estadio Azteca Mexico City today. US host cities: Atlanta, Boston, Dallas, Houston, Kansas City, LA, Miami, NY/NJ, Philadelphia, Seattle, SF Bay Area. Iranian-affiliated hacktivist groups specifically named as threat by Canadian Cyber Centre and Rozin Security (context: active US-Iran military exchange). \$250M federal counter-drone funding deployed across 11 US host cities. CISA lost ~33% staff in 2026 shutdown -- direct impact on critical infrastructure protection. Santa Clara Valley (Levi Stadium) under Heat Advisory today (highs 90s). [WC-001, CYB-003]</p>
<p>WATCH ENHANCED SPC Day 1 WX-CON 3</p>	<p>SPC DAY 1 ENHANCED RISK ACTIVE NOW: IOWA / N.MO / N.IL / S.WI / N.IN / LOWER MI -- TORNADES (SOME STRONG-INTENSE) / HAIL 2IN+ / WINDS 70-75+ MPH -- NWR COMPOUND GAP IN ACTIVE ZONE: SPC Day 1 Convective Outlook (1259 AM CDT 12-JUN): SLIGHT RISK valid 121200Z-131200Z. Damaging winds and isolated hail across the Appalachians, Mid-Atlantic and Northeast this afternoon-evening; secondary Slight over the south-central High Plains (isolated supercell, hail, possible tornado). World Cup venue overlap: NY/NJ and Philadelphia begin hosting Sat/Sun. Day 2 (13-JUN): ENHANCED Risk eastern KS into west-central IL (large-to-very-large hail early, bowing MCS 70-80 mph). NWR: 33 transmitters OOS/DEGRADED (NOAA pull 12-JUN 1043Z); limited overlap with the Northeast threat zone. [WX-001]</p>

PRACTITIONER POSTURE - 72-HOUR DECISION TRIGGERS

- 1. US-Iran (De-escalation):** Trump called off the threatened third strike night (11-JUN) and announced a settlement to end the war, signing expected within days in Europe; the Kharg Island seizure would be abandoned if signed. Oil fell (Brent toward \$88-90; pump average easing, third straight weekly decline). NOT cleared: two Iranian drones downed near Hormuz 12-JUN; Tehran has not confirmed terms; nuclear/sanctions core deferred per ACLED; IAEA Board 21-0 resolution (10-JUN) still demands access. Watch whether Tehran publicly accepts terms and whether a signing occurs this weekend.
- 2. Cyber -- Post-Deadline Threat-Hunt:** Check Point VPN (CVE-2026-50751) FCEB remediation deadline PASSED 11-JUN. Any unpatched/undisconnected appliance is now an active incident-response situation, not a patch-cycle item -- a Qilin ransomware affiliate has been exploiting since 7-MAY. Microsoft Patch Tuesday 10-JUN: 200+ CVEs (record) with a RoguePlanet PoC (SYSTEM shell) published same day -- deploy. Secure Boot cert expiration 26-JUN. CISA new BOD (consequence-based prioritization) published 10-JUN -- review for applicability.
- 3. Severe Weather -- This Afternoon:** SPC Day 1 SLIGHT Risk: damaging winds and isolated hail across the Appalachians, Mid-Atlantic, and Northeast this afternoon-evening; secondary Slight over the south-central High Plains (isolated supercell, hail, possible tornado). World Cup host cities NY/NJ and Philadelphia begin hosting Sat/Sun -- plan around afternoon storms. Day 2 (Sat 13-JUN): ENHANCED Risk eastern KS into west-central IL (large hail early, bowing MCS 70-80 mph). NWR: 33 transmitters OOS/DEGRADED (NOAA pull 12-JUN), limited overlap with the Northeast threat zone.
- 4. World Cup + Physical Security:** FIFA World Cup opens TODAY across 16 cities (US, Canada, Mexico). Iranian-affiliated hacktivist groups named as cyber threat (Canadian Cyber Centre). FBI drone warning in effect for all stadium airspace. \$250M counter-drone deployed. CISA staffing gap (~33% from 2026 shutdown) directly impacts event security. Santa Clara Valley (Levi

Stadium) under Heat Advisory (highs 90s). Organizations with staff attending events: review soft target guidance and maintain situational awareness at fan zones and transit hubs.

5. Northern Ireland Riots / UK Security: Day 4, easing. PSNI reports 16 arrested this week and 12 officers injured; water cannon and AEPs used. Unrest on 10-JUN was LOWER than the prior night, suggesting the disorder may be fatiguing, though PSNI is still seeking further suspects. Trigger was an 8-JUN knife attack (Sudanese suspect charged). Pattern: 2025 NI riots ran 9-18 June. Organizations with UK/Ireland operations: review travel-advisory posture, avoid protest areas, monitor US Embassy London at uk.usembassy.gov.

NUMBER STRIP - CURRENT-CYCLE MOVING VALUES

BRENT CRUDE ~\$88-90/bbl Falling on de-escalation	PUMP AVG ~\$4.13-4.17 3rd straight weekly decline	NWR AFFECTED 35 26 OOS + 9 DEG	BLOCKADE DAY 60 Transit contested but flowing	EBOLA 635 Cases (127 deaths / +37/+12)
--	--	--	---	--

KEY JUDGMENTS

KJ-1 US-IRAN EXCHANGE (Day 103 / Hormuz 60): After two strike nights, Trump called off the threatened third night (11-JUN) and announced a settlement to end the war, signing expected within days in Europe. Oil fell (Brent toward \$88-90; pump average easing). The war is paused, not ended: two Iranian drones were downed near Hormuz 12-JUN; Tehran has not publicly confirmed the terms; the IAEA Board 21-0 resolution (10-JUN) still demands nuclear access. The settlement is announced, unsigned, and unverified, and ACLED assesses the nuclear and sanctions core is deferred to follow-on talks.

LIKELIHOOD: roughly even chance (further direct exchange within 48 hours). **CONFIDENCE:** MODERATE.

CHANGE FROM PRIOR: PRIOR CYCLE: active two-night US-Iran exchange, ceasefire assessed broken, score 31. THIS CYCLE: third-night strike called off, settlement announced (unsigned), Brent falling toward \$88-90. Score reduced to 26. Offsetting: two drones downed near Hormuz 12-JUN; Tehran has not confirmed terms.

KJ-2 NUCLEAR PROLIFERATION (IAEA Blackout Day 104): IAEA verification blackout Day 103 means 440.9 kg of 60%-enriched HEU cannot be accounted for. The Xi-Kim summit concluded 09-JUN without denuclearization outcome; Kim simultaneously announced exponential nuclear production ramp-up. These events represent the simultaneous collapse of NPT verification architecture in two separate theaters. The cumulative global proliferation environment is materially worse than any point in the post-Cold War era.

LIKELIHOOD: almost certain (Iran maintaining functional enrichment with no IAEA visibility). **CONFIDENCE:** HIGH.

CHANGE FROM PRIOR: THIS CYCLE: IAEA Board voted 21-0 10-JUN demanding Iran grant nuclear access -- Iran rejected. FDD/ISIS 09-JUN analysis confirms near-total monitoring loss. 440.9 kg 60% HEU remains unaccounted. Analytical confidence HIGH.

KJ-3 BVD/EBOLA TRAJECTORY (PHEIC Active): The Central Africa Ebola (Bundibugyo) PHEIC continues to worsen: 635 confirmed cases and 127 deaths per the DRC MoH 10-JUN update (data as of 9-JUN), an increase of 37 cases and 12 deaths. With the FIFA World Cup under way, the US administration is requesting European travel restrictions on recent travelers from the affected countries. No licensed vaccine or treatment for the Bundibugyo strain. No US cases. US risk remains LOW per CDC.

LIKELIHOOD: likely (outbreak exceeds 1,000 confirmed cases within 14 days at current trajectory). **CONFIDENCE:** MODERATE.

CHANGE FROM PRIOR: PRIOR CYCLE: 598 confirmed / 115 deaths. THIS CYCLE: 635 confirmed / 127 deaths (DRC MoH 10-JUN). +37 cases / +12 deaths. New driver: World Cup travel-restriction request.

FLASH SUMMARY - Score ≥ 20 (3 this cycle)

US Strikes Iran 2nd Consecutive Night (10-11 JUN UTC). IRGC Fires on Bahrain/Kuwait/Jordan -- All Intercepted. IAEA Board 21-0 Demands Nuclear Access. Ceasefire at Breaking Point.

FLASH | UPDATED | 31

GEO-CF-IRAN - Op Epic Fury Day 103 / Hormuz Blockade Day 60. Trump called off the threatened third night of strikes on 11-JUN and announced a settlement to end the war, with signing expected within days in Europe; the proposed Kharg Island terminal seizure would be abandoned if signed. Markets read de-escalation: Brent fell ~2.9% to \$90.38 (11-JUN), extending toward \$88 (12-JUN); the AAA pump average eased to ~\$4.13-4.17. The war is paused, not ended: US forces downed two Iranian drones near Hormuz 12-JUN after a vessel was fired on. Tehran has not confirmed terms; nuclear and sanctions core deferred per ACLED.

CHANGE FROM PRIOR: De-escalation. Third-night strike called off 11-JUN; settlement announced (unsigned, unverified); Brent fell toward \$88-90; pump average eased. Offsetting: two Iranian drones downed near Hormuz 12-JUN; Tehran has not confirmed terms. Score reduced 31 to 26.

LIKELIHOOD: Further direct exchange within 48 hours: **ROUGHLY EVEN CHANCE. CONFIDENCE: MODERATE.** Hormuz blockade persists through end of June: **VERY LIKELY. CONFIDENCE: HIGH.** Deal track formally collapses within 72 hours: **UNLIKELY. CONFIDENCE: MODERATE.**

IAEA Verification Blackout Day 104. IAEA Board 21-0 Resolution 10-JUN Demands Nuclear Access. Settlement reportedly hinges on the HEU stockpile but remains unverifiable. 440.9 kg 60% HEU Unaccounted.

FLASH | UPDATED | 25

NUC-001 - FDD/ISIS published 09-JUN analysis of IAEA June 4 quarterly report: near-total, ongoing loss of monitoring. IAEA stopped verification activities in Iran as of 28-FEB-2026. Director General Grossi: irreversible loss of continuity of knowledge. 440.9 kg of 60%-

enriched HEU -- sufficient fissile material for multiple nuclear weapons if further enriched to 90%+ -- cannot be located or accounted for by any external party. Fordow and Isfahan underground facilities assessed as largely intact and operational. US demand: full surrender of HEU. Iran offer: down-blend only (reversible, unverifiable without IAEA access). Impasse structurally unchanged. Xi-Kim summit 09-JUN produced no denuclearization outcome simultaneously.

CHANGE FROM PRIOR: THIS CYCLE adds IAEA Board 21-0 resolution 10-JUN demanding nuclear access -- Iran rejected. FDD/ISIS 09-JUN analysis confirmed near-total monitoring loss. Score bumped to 25.

LIKELIHOOD: Iran maintaining functional enrichment with no IAEA visibility: ALMOST CERTAIN. CONFIDENCE: HIGH. HEU surrendered or verifiably down-blended within 30 days: ALMOST NO CHANCE. CONFIDENCE: HIGH.

Check Point VPN FCEB Deadline PASSED 11-JUN -- Post-Deadline Threat-Hunt; Qilin Affiliate Exploiting Since 7-MAY. Microsoft Patch Tuesday 10-JUN: 200+ CVEs (Record). RoguePlanet PoC Same Day. CISA New BOD 10-JUN.

FLASH | UPDATED | 20

CYB-001 - Check Point Security Gateway (CVE-2026-50751, CVSS 9.3): FCEB deadline PASSED 11-JUN -- confirm compliance. Active exploitation confirmed since May 7; Qilin ransomware affiliate linked to post-compromise activity (Rapid7 HIGH confidence). FCEB agencies not yet patched or disconnected are in violation as of 11-JUN. Microsoft Patch Tuesday 10-JUN: 200+ CVEs (largest PT in history); 3 publicly disclosed zero-days (CVE-2026-50507 BitLocker bypass, CVE-2026-49160 HTTP.sys DoS remotely exploitable, CVE-2026-45586 CTFMON EoP); 54 RCE vulnerabilities; Windows Hyper-V RCE; Windows Kerberos KDC RCE. RoguePlanet PoC (SYSTEM shell via Windows Defender race condition) published by Nightmare Eclipse within hours of patch release. CISA new BOD published 10-JUN (consequence-based risk prioritization). Secure Boot cert expiration: 26-JUN.

LIKELIHOOD: Further Qilin ransomware exploitation of unpatched Check Point appliances today: LIKELY. CONFIDENCE: HIGH. RoguePlanet PoC weaponized by criminal actors within 72 hours of PT release: LIKELY. CONFIDENCE: MODERATE.

ANALYTICAL STANDARDS & SOURCE REGISTRY

This report is produced under the [FFTP Analytical Standards](#) (ICD 203/206 compliant) using the [FFTP Master Source Registry](#). All sources are tiered by reliability and assigned confidence levels. Likelihood language follows the \$0.55 estimative ladder: almost no chance, very unlikely, unlikely, roughly even chance, likely, very likely, almost certain. Confidence: HIGH, MODERATE, or LOW.

REGISTRY	TOTAL SOURCES	TIER 1	TIER 2	TIER 3
Master Source Registry v2.24	629	367	253	9 (use with caution)

ANALYTICAL STANDARDS

FFTP Intelligence Operations Division follows ICD 203 (Analytic Standards) and ICD 206 (Sourcing Requirements) for all scored entries. Every FLASH and HIGH entry carries: (1) likelihood band from the \$0.55 estimative ladder, (2) confidence level (HIGH/MODERATE/LOW), and (3) minimum two alternative hypotheses with supporting and disconfirming evidence.

TIER DEFINITIONS

T1: Primary government, academic, or institutional sources with direct reporting capability. T2: Established news organizations with editorial standards and regional expertise. T3: Specialized or emerging sources - used with explicit framing caveats.

Full source list, methodology, and analytical framework: fortunefavorstheprepared.com/analytical-standards | fortunefavorstheprepared.com/source-registry

FROM THE DESK - NEW SERIES

The Architecture of Intelligence: How the Modern Surveillance World Was Built

A new series examining how the modern intelligence and surveillance apparatus came to be -- its origins, its institutions, and how it shapes the threat environment this report tracks every day. Recommended background reading for practitioners and households alike.
