

DTR LITE -- Executive Brief

Fortune Favors the Prepared | Intelligence Operations Division
Tuesday, 14 July 2026 | Executive and director-level brief

⚠ PREPAREDNESS CONDITION 3 -- BROWN SKY -- INCIDENT PROBABLE ⚠

Tuesday, 14 July 2026 | Op Epic Fury Day 137 | Hormuz Day 137 | MOU Day 27 | IAEA Blackout Day 137 | Ebola PHEIC Day 59 | World Cup Day 35, France-Spain semifinal played today | Venezuela EQ Day 21 | DOM-002 retired | Brent ~\$86.85/bbl (14-JUL, further ~10% two-day gain on the US blockade restart)

COMCON 4 -- INCREASED VIGILANCE (see CYB-001 below for full detail)

WX-CON 3 ELEVATED (see WX-001 below for weather detail; WX-002/Section 7B for wildfire)

SWX-CON 2 WATCH (see below for full detail)

Publication (UTC)	14 JUL 2026 / Cycle close 1530 UTC
Reporting Period	10-JUL-2026 1530Z through 14-JUL-2026 1530Z
SOP	v5.62 Addendum ICD 203/206 Compliant Registry v2.25 (docx reconciled) 56/56 mandatory sources dispositioned

BOTTOM LINE UP FRONT -- 14-JUL-2026 | PREP-CON 3 BROWN SKY | Op Epic Fury / Hormuz Day 137 | MOU Day 27 | IAEA Blackout Day 137 | Ebola PHEIC Day 59 | NPL 4 of 5 (last confirmed 12-JUL 0730 MDT IMSR) | World Cup Day 35, France-Spain semifinal played today | Venezuela EQ Day 21 -- Recovery/Reconstruction

PREP-CON 3 BROWN SKY | WX-CON 4 ELEVATED (weather/heat only, see WX-001) | **SWX-CON 2 WATCH (pending re-confirm)** | COMCON 4 INCREASED VIGILANCE | 23 NWR OOS/DEGRADED (roster churned) | Brent ~\$86.85/bbl (further ~10% two-day gain) | KEV deadlines overdue a 4th+ cycle: SimpleHelp, SharePoint, iCagenda/Balbooa Forms; no new cluster this cycle

FLASH GEO-CF-IRAN MOU Day 27 Day 137

US BLOCKADE RESTARTS, FIRST CONFIRMED FATALITY -- CENTCOM restarts the naval blockade of Iranian shipping at 1600 ET today; Trump maintains the Strait stays open and will seek a 20% cargo-value transit fee rather than accept Iran's closure declaration. ADNOC reports two UAE tankers struck, one mariner killed (first confirmed fatality this phase, a foreign national -- CONUS-casualty trigger not met). UKMTO confirms a separate tanker struck near Qalhat, Oman, no injuries; JMIC has the region at SEVERE. Jordan intercepted more missiles overnight (still the 4th retaliation state, no 5th confirmed). Iran threatens a devastating response if Pickaxe Mountain is struck. IAEA Blackout Day 137: no new Board action or Grossi statement found. Brent ~\$86.85/bbl (14-JUL), a further ~10% two-day gain. PREP-CON held at 3 -- re-run against Triggers Annex v1.1 given the blockade restart and Pickaxe Mountain threat. [GEO-CF-IRAN / NUC-001]

FLASH VENEZUELA EQ Day 21 Recovery/Reconstruction

VENEZUELA M7.2+M7.5 EQ -- DAY 21 -- RECOVERY/RECONSTRUCTION PHASE -- Toll rose to 4,490 confirmed dead per National Assembly President Rodriguez (up from 4,333); injured figure (16,740) stale since 07-JUL, now a 4th consecutive cycle -- itself becoming the story. Displacement exceeds 19,500 in camps. Gold-release request not independently re-verified this cycle. [GEO-003]

HIGH CYB-001 KEVs Overdue -- No New Cluster

SHAREPOINT/SIMPLEHELP/ICAGENDA-BALBOOA ALL OVERDUE; NO NEW CLUSTER THIS CYCLE -- SimpleHelp OIDS bypass (overdue since 02-JUL) and Microsoft SharePoint deserialization (overdue since 04-JUL) both remain unremediated a 4th+ cycle. iCagenda and Balbooa Forms (added 10-JUL, T-0 13-JUL) are now themselves overdue. Live-checked CISA's KEV catalog and recent alerts -- no new

	cluster identified this cycle despite last cycle's LIKELY forecast; report as genuine NSTR on a new cluster. Federal agencies remain in violation of BOD 26-04. Conduct compromise assessment before patching. [CYB-001]
FLASH WILDFIRE NPL 4 Cottonwood (Sec 7B)	BABYLON FIRE (UT) -- 50% CONTAINED, COMMAND TRANSITION -- Babylon Fire (San Juan County, UT): approximately 106,300-106,600 acres, 50% contained as of 13-JUL (up from 47% on 12-JUL) -- remains nation's largest active wildfire; command transitioned Great Basin Team 2 to Team 6 at 0600 today. Cottonwood Fire (Beaver County, UT): 97,373 acres, 77% contained as of 12-JUL, remains 2nd-largest -- a fresher figure was not independently confirmed this cycle despite a dedicated search. NIFC NPL last confirmed 4 of 5 off the 12-JUL 0730 MDT IMSR. [WX-002/Section 7B]
HIGH EBOLA PHEIC Day 59	EBOLA PHEIC DAY 59 -- DRC/UGANDA -- US CASE MEDEVAC'D TO GERMANY -- DRC: 1,926 confirmed (702 deaths, CFR ~36.5%) per ECDC's 13-JUL threat assessment (data through 11-JUL) -- an increase of 53 cases/39 deaths since 11-JUL. Uganda not independently re-verified this cycle. RESOLVED: the 2nd American case (Samaritan's Purse worker) was medevac'd to Frankfurt University Hospital, Germany, arriving ~0300 local 13-JUL -- this does not change CONUS entry-screening posture since no US point of entry was involved. No approved vaccine or specific treatment for the Bundibugyo strain. [PHS-002]
WATCH SWX SWX-CON 2 K-Index 4 Alert (Pending Re-confirm)	SWX-CON 2 WATCH -- K-INDEX 4 ALERT, ELECTRON-FLUX STORY SUPERSEDED -- Today's feed (ALTK04/WARK04 Serial 2674/5384) shows only a routine K-index 4 geomagnetic alert/warning -- a materially less severe product than the ALTEF3 electron-flux alert carried in recent cycles, which does not appear in today's pull. Either a genuine de-escalation or a feed gap; SWX-CON held at 2 pending operator confirmation. 23 stations, roster composition churned significantly vs. 13-JUL -- see DTR Full for the per-transmitter table. Source: NOAA SWPC swpc.noaa.gov. [SWX-001]
RETIRED DOM-002	DOM-002 -- RETIRED THIS CYCLE - entry removed. Twelfth of July parades (13-JUL, 18 locations) concluded with no incident reported; UK Labour nomination timeline closes 16-JUL with no delta.
WATCH WORLD CUP Day 35 Semifinal Played Today	WORLD CUP DAY 35, FRANCE-SPAIN SEMIFINAL PLAYED TODAY -- SAN PEDRO SQUARE INCIDENTS REMAIN LAST CONFIRMED -- France vs. Spain semifinal kicked off today in Dallas/Arlington -- result pending at sweep time, do not publish a score without live confirmation. England vs. Argentina remains scheduled 15-JUL (Atlanta). No new stadium-venue or fan-zone incident identified this cycle; San Pedro Square incidents (homicide 28-JUN, stabbings 01-JUL) remain the last confirmed security-relevant developments. ENR-002 grid emergency remains retired - no new order this cycle. [STSB-001]

PRACTITIONER POSTURE -- 72-HOUR DECISION TRIGGERS

- 1. GEO-CF-IRAN / MOU Day 27 -- Blockade Restart, First Fatality:** US blockade restarted 1600 ET today; Trump rejects Iran's closure, proposes 20% fee. First confirmed fatality this phase (UAE tanker, foreign national). Jordan struck again (still 4th state). Iran threatens response if Pickaxe Mountain struck. PREP-CON held at 3 (non-CONUS). Tripwires: a confirmed US casualty; a struck Pickaxe Mountain; a 5th retaliation state.
- 2. Venezuela Day 21 -- Recovery/Reconstruction:** 4,490 dead, up from 4,333; injured figure (16,740) stale since 07-JUL, now a 4th consecutive cycle. Tripwires: revised PROVEA/UNDP loss-estimate reconciliation; further death-toll revision; a fresh injured-figure update.
- 3. Cyber -- KEV Deadlines Overdue a 4th+ Cycle, No New Cluster:** SimpleHelp, Microsoft SharePoint, and now iCagenda/Balboa Forms are all overdue. No new cluster identified this cycle despite last cycle's **LIKELY** forecast. Conduct compromise assessment before patching.
- 4. Wildfire -- Babylon Fire (UT) 50% Contained, Command Transition:** Babylon ~106,300-106,600 acres/50% contained (up from 47%) remains larger than Cottonwood (97,373 acres/77%, 2nd-largest, figure not independently refreshed this cycle). NIFC NPL last confirmed 4 of 5 off the 12-JUL IMSR. See WX-002/Section 7B. Tripwire: containment plateau/reversal; new large fire starts.
- 5. Ebola PHEIC Day 59 -- US Case Medevac'd to Germany:** DRC 1,926 confirmed/702 deaths (CFR ~36.5%) per ECDC 13-JUL, an increase of 53/39 since 11-JUL. 2nd US case now confirmed medevac'd to Frankfurt, not CONUS. Tripwire: WHO DON publication; further case-count trajectory.
- 6. World Cup Day 35 / France-Spain Semifinal Today:** France vs. Spain kicked off today in Dallas; England vs. Argentina remains scheduled 15-JUL (Atlanta). No new security incident this cycle. DOM-002 (UK Labour/Belfast): retired this cycle - entry removed, Twelfth of July parades concluded with no incident.

CALLOUT -- IMPACT OF THE CONTINUED/ESCALATING IRAN CONFLICT

Energy / fuel: ~\$86.85/bbl (14-JUL) vs \$78.85 close (13-JUL), a further ~10% two-day gain on the US blockade restart; AAA \$3.8720/gal unchanged at this pull -- EIA's weekly release is due today and may update intraday.

Maritime / supply chain: UKMTO directly re-verified this cycle -- a tanker struck near Qalhat, Oman, no injuries; JMIC has the region at SEVERE. Daily transit-count sourcing is inconsistent across trackers this cycle; treat as unverified. Diesel/ocean-freight Commodity Tracker rows not refreshed this cycle.

Escalation trajectory: US blockade restart, first confirmed strike-phase fatality, and Iran's Pickaxe Mountain threat all raise the stakes further. PREP-CON held at 3 (non-CONUS, no confirmed US casualty or 5th state) -- not a signal that risk is easing.

No direct US-household action required today -- this is a monitoring item, not an action item, unless you have direct exposure (travel, shipping, fuel-dependent operations).

NUMBER STRIP -- CURRENT-CYCLE MOVING VALUES

BRENT CRUDE ~\$86.85/bbl vs \$78.85 close 13-JUL (48hr delta, further ~10% gain) -- driven by the US blockade restart (1600 ET today) and continued closure dispute	PUMP AVG (NAT) \$3.8720 AAA -- unchanged at this pull; EIA's weekly release due today, may update intraday	NWR AFFECTED 23 same total as 13-JUL but roster composition churned significantly (multiple cleared, multiple new)	VENEZUELA 4,490 dead Day 21 injured figure (16,740) stale a 4th cycle since 07-JUL	EBOLA PHEIC 1,926 confirmed (702 deaths, CFR ~36.5%) DRC (ECDC 13-JUL) Uganda n/a this cycle Day 59 US case medevac'd to Germany
---	--	--	--	--

KEY JUDGMENTS

KJ-1 US-IRAN BLOCKADE RESTART / HORMUZ CLOSURE DISPUTE (Op Epic Fury Day 137 / MOU Day 27):

MOU Day 27: US blockade of Iranian shipping restarts 1600 ET today; Trump maintains the Strait stays open and will seek a 20% transit fee rather than accept Iran's closure declaration. First confirmed fatality of this strike phase (UAE tanker, foreign national, CONUS-casualty trigger not met). Jordan struck again overnight (still 4th state, no 5th confirmed). Iran threatens a devastating response if Pickaxe Mountain is struck. PREP-CON held at 3 (non-CONUS trigger).

LIKELIHOOD: The blockade produces a confirmed US-flagged vessel incident or Pickaxe Mountain is struck within the week: **UNLIKELY** given no US-flagged vessel has been targeted to date, but Iran's devastating-response threat over Pickaxe Mountain is a live risk. **CONFIDENCE: MODERATE.**

CHANGE FROM PRIOR: the US blockade restart, first confirmed strike-phase fatality, and Iran's Pickaxe Mountain threat are all new this cycle -- prior cycle's framing was a closure-declaration/public-dispute story without a blockade or casualty. Brent ~\$86.85/bbl now (14-JUL), vs \$78.85 close (13-JUL).

KJ-2 IAEA VERIFICATION BLACKOUT (Day 137):

440.9 kg 60%-HEU -- last IAEA-verified 28-FEB-2026; unverified since, now Day 137 of the blackout. Live-checked directly against [iaea.org/current-reporting](https://www.iaea.org/current-reporting) this cycle: no new Board action, Grossi statement, or access-position shift found, even accounting for the continued strikes and Strait-closure dispute. Most recent Board action remains the 10-JUN resolution.

LIKELIHOOD: ALMOST CERTAIN (Iran maintaining functional enrichment with no IAEA visibility). **CONFIDENCE: HIGH.**

CHANGE FROM PRIOR: none identified -- confirmed via live source check this cycle, not carried on assumption.

KJ-3 EBOLA PHEIC TRAJECTORY (Day 59):

DRC 1,926 confirmed (702 deaths, CFR ~36.5%) per ECDC's 13-JUL threat assessment -- an increase of 53 cases/39 deaths since 11-JUL. Uganda not independently re-verified this cycle. RESOLVED: the 2nd American case was medevac'd to Frankfurt, Germany (not CONUS), confirmed 13-JUL. Bundibugyo strain has no approved vaccine or treatment.

LIKELIHOOD: Case count continues rising next cycle: **LIKELY** -- outbreak remains the fastest-growing Ebola event on record per Africa CDC. **CONFIDENCE: MODERATE.**

CHANGE FROM PRIOR: case/death figures updated to the 09-JUL ECDC release (a genuine increase); the first US case is new this cycle.

ANALYTICAL STANDARDS & SOURCE REGISTRY

Produced under ICD 203/206 analytic standards | Master Source Registry v2.25 (638 sources -- docx reconciled this cycle, HTML/SESSION_OPENER reconciliation remains outstanding website-side) | Likelihood: \$0.55 estimative ladder | Confidence: HIGH / MODERATE / LOW | All FLASH/HIGH entries carry likelihood, confidence, and minimum two alternative hypotheses.
