MED-04 START Triage — Practicum Patient Cards

20 patients — cut along the dashed lines and shuffle before use. No tags shown; run each patient through Lesson 02 (or Lesson 04 for pediatric patients).

MED-04 PRACTICUM — PATIENT 1

Adult

Found standing beside an overturned truck cab, favoring one arm.

Can walk: Yes — walking toward the collection point on request.
Hemorrhage: No visible severe bleeding.
Breathing: Not assessed further — already walking.
Pulse / refill: Not assessed further.
Mental status: Not assessed further.

MED-04 PRACTICUM — PATIENT 2

Adult

Pinned under the dashboard, not moving.

Can walk: No.
Hemorrhage: No visible severe bleeding.
Breathing: 0 breaths counted in 15 seconds. Airway repositioned — still 0 breaths in 15 seconds.
Pulse / refill: Not assessed — not breathing after reposition.
Mental status: Not assessed.

MED-04 PRACTICUM — PATIENT 3

Adult

Lying in the roadway, moaning, spurting bleeding from the thigh.

Can walk: No.
Hemorrhage: Severe bleeding from the thigh — spurting.
Breathing: 5 breaths counted in 15 seconds.
Pulse / refill: No radial pulse felt.
Mental status: Not assessed — fails at perfusion.

MED-04 PRACTICUM — PATIENT 4

Adult

Sitting against the guardrail, alert, holding a deformed leg.

Can walk: No — leg injury prevents standing.
Hemorrhage: No visible severe bleeding.
Breathing: 5 breaths counted in 15 seconds.
Pulse / refill: Radial pulse present.
Mental status: Follows simple commands.

MED-04 PRACTICUM — PATIENT 5

Child, approx. 6 yrs

Crying, clinging to the seat, climbs out when coaxed.

Can walk: Yes — climbs out and walks on request.
Hemorrhage: No visible severe bleeding.
Breathing: Not assessed further — already walking.
Pulse / refill: Not assessed further.
Mental status: Not assessed further.

MED-04 PRACTICUM — PATIENT 6

Adult

Thrown clear of the vehicle, on their back, not moving.

Can walk: No.
Hemorrhage: No visible severe bleeding.
Breathing: 0 breaths in 15 seconds. Airway repositioned — breathing resumes. 9 breaths counted in 15 seconds after reposition.
Pulse / refill: Not yet assessed — rate already checked.
Mental status: Not yet assessed.

MED-04 PRACTICUM — PATIENT 7

Adult

Standing, pale, holding a bleeding forearm.

Can walk: Yes.
Hemorrhage: Bleeding controlled with direct pressure, not severe.
Breathing: Not assessed further — already walking.
Pulse / refill: Not assessed further.
Mental status: Not assessed further.

MED-04 PRACTICUM — PATIENT 8

Child, approx. 4 yrs

Found under the seat, limp.

Can walk: No.
Hemorrhage: No visible severe bleeding.
Breathing: 0 breaths in 15 seconds. Airway opened — still apneic. 5 rescue breaths given — breathing resumes.
Pulse / refill: Pulse present once breathing resumes.
Mental status: Not yet assessed.

MED-04 PRACTICUM — PATIENT 9

Adult

Unresponsive, no visible injuries.

Can walk: No.
Hemorrhage: No visible severe bleeding.
Breathing: 6 breaths counted in 15 seconds.
Pulse / refill: Radial pulse present.
Mental status: Does not respond to voice or a shoulder tap.

MED-04 PRACTICUM — PATIENT 10

Adult

Sitting on the curb, alert, minor cuts to both hands.

Can walk: Yes.
Hemorrhage: No visible severe bleeding.
Breathing: Not assessed further — already walking.
Pulse / refill: Not assessed further.
Mental status: Not assessed further.

MED-04 START Triage — Practicum Patient Cards

20 patients — cut along the dashed lines and shuffle before use. No tags shown; run each patient through Lesson 02 (or Lesson 04 for pediatric patients).

MED-04 PRACTICUM — PATIENT 11

Adult

Found face down near the tree line, not moving.

Can walk: No.
Hemorrhage: No visible severe bleeding.
Breathing: 0 breaths in 15 seconds. Airway repositioned — still 0 breaths in 15 seconds.
Pulse / refill: Not assessed — not breathing after reposition.
Mental status: Not assessed.

MED-04 PRACTICUM — PATIENT 12

Child, approx. 9 yrs

Pinned at the waist, scared, talking rapidly.

Can walk: No — pinned.
Hemorrhage: No visible severe bleeding.
Breathing: 9 breaths counted in 15 seconds.
Pulse / refill: Radial pulse present.
Mental status: Responds appropriately to voice, follows simple requests.

MED-04 PRACTICUM — PATIENT 13

Adult

Seated, breathing visibly, no pulse felt at either wrist.

Can walk: No.
Hemorrhage: No visible severe bleeding.
Breathing: 5 breaths counted in 15 seconds.
Pulse / refill: No radial pulse felt.
Mental status: Not assessed — fails at perfusion.

MED-04 PRACTICUM — PATIENT 14

Adult

Lying down, cool and pale extremities.

Can walk: No.
Hemorrhage: No visible severe bleeding.
Breathing: 6 breaths counted in 15 seconds.
Pulse / refill: Capillary refill measured at approximately 3 seconds.
Mental status: Not assessed — fails at perfusion.

MED-04 PRACTICUM — PATIENT 15

Child, approx. 2 yrs

Limp in a caregiver's arms.

Can walk: No.
Hemorrhage: No visible severe bleeding.
Breathing: 0 breaths in 15 seconds. Airway opened — still apneic.
Pulse / refill: No pulse felt.
Mental status: Not assessed — no pulse after apnea.

MED-04 PRACTICUM — PATIENT 16

Adult

Waving both arms, walking toward responders.

Can walk: Yes.
Hemorrhage: No visible severe bleeding.
Breathing: Not assessed further — already walking.
Pulse / refill: Not assessed further.
Mental status: Not assessed further.

MED-04 PRACTICUM — PATIENT 17

Adult

Sitting upright, breathing visibly labored.

Can walk: No.
Hemorrhage: No visible severe bleeding.
Breathing: 8 breaths counted in 15 seconds.
Pulse / refill: Radial pulse present.
Mental status: Follows simple commands.

MED-04 PRACTICUM — PATIENT 18

Adult

Lying still, eyes closed.

Can walk: No.
Hemorrhage: No visible severe bleeding.
Breathing: 4 breaths counted in 15 seconds.
Pulse / refill: Radial pulse present.
Mental status: Does not respond to name or a shoulder shake.

MED-04 PRACTICUM — PATIENT 19

Child, approx. 7 yrs

Lying quietly, eyes half-open, slow to react.

Can walk: No.
Hemorrhage: No visible severe bleeding.
Breathing: 3 breaths counted in 15 seconds.
Pulse / refill: Radial pulse present.
Mental status: Responds appropriately when spoken to, but drowsy.

MED-04 PRACTICUM — PATIENT 20

Adult

Sitting against a tire, breathing calmly, tracking movement.

Can walk: No — ankle injury.
Hemorrhage: No visible severe bleeding.
Breathing: 14 breaths per minute (already counted).
Pulse / refill: Radial pulse present.
Mental status: Follows simple commands.
